ICMR gets conditional permission to use drone for vaccine delivery trials

The permission has been granted to ICMR for conducting experimental Beyond Visual of Sight (BVLOS) vaccine delivery in Andaman and Nicobar Islands, Manipur, and Nagaland upto a height of 3000 meters using drones.

Ministry of Civil Aviation granted conditional permission to Indian Council of Medical Research to conduct trials for vaccine delivery via drones. The permission has been granted to ICMR for conducting experimental Beyond Visual Line of Sight vaccine delivery in Andaman and Nicobar Islands, Manipur, and Nagaland upto a height of 3000 meters using drones.

Indian Institute of Technology, Bombay (IIT-B) has received drone use permission for research, development and testing of drones in its own premises.

"This exemption shall be subject to the terms and conditions of the said airspace clearance and shall be for a period of one year from the date of approval of the said airspace clearance or until further orders, whichever is earlier," it stated.

Earlier, on 11th September 2021, Union Minister for Civil Aviation Jyotiraditya Scindia had launched first kind 'Medicines from the Sky' project at Vikarabad in Telangana state under which drugs and vaccines were delivered using drones.

On 25th August 2021, the Ministry of Civil Aviation notified the liberalised Drone Rules, 2021 "to usher in an era of super-normal growth while balancing safety and security considerations in drone operations," it stated.
