For the first time in India, blood bags have been delivered by drones. The inaugural flight in a validation study carried 10 units of whole blood samples from The Government Institute of Medical Sciences (GIMS) and Lady Hardinge Medical College (LHMC). This drone sortie was in the visual line of sight conducted at Jaypee Institute of Information Technology (JIIT), Noida.

Sharing visuals of the historic delivery, ANI tweeted, “In a first in India, validation of blood bags delivered by drones compared to the conventional method of transportation was done today.”

3 US Citizenship Act 2023: Democrats propose to eliminate country quota for Green Card

The bill also creates a pilot programme to stimulate regional economic development and incentivises higher wages for non-immigrant, high-skilled visas to shield them from unfair competition with American workers.
